

Proservartner Introduces a Unique Site Visit Program as Part of its Services

London July 29, 2010 - Proservartner a social enterprise management consultancy, focused on Outsourcing, Offshoring, Shared Services and Transformation of Corporate Services, today announced the introduction of its unique of Site Visits program as part of their services.

Site visits provide an important quality evaluation for a firm to ensure that they are making the right decision. Proservartner's Site Visit program is unique in that it offers an opportunity to review BPO centres and Shared Service Centres for the particular functions that the firm wishes to review, and the particular locations that are under consideration.

The program offers an experienced and independent team that will host the site visit and ensure a means for firms to observe facilities, interact with staff and management, and test whether this is something that truly works for the organisation.

"Through this service we aim provide our clients a great start to their outsourcing / Shared Services Journey by engaging directly with the providers to see real time their service offering" Rakesh Sangani Partner, Proservartner

Proservartner is a social enterprise management consultancy that partners with organisations to provide independent advice, discovery, guidance and implementation support. Our focus is in providing Research, Advisory and Delivery consultancy in Outsourcing, Offshoring, Shared Services and Transformation of Corporate Services sectors.
